Piyali Sarkar

Frontend Developer(React)

PROFESSIONAL SUMMARY

Dynamic Frontend Developer with strong proficiency in React.js, adept at creating scalable, high-quality code and responsive designs. Demonstrates adaptability and expertise in leveraging Generative AI and swiftly learning new technologies. Excellent collaboration and problem-solving skills ensure exceptional cross-platform user experiences.

PROJECTS

1. Digital Era | |

CSS3 | HTML5 | JavaScript | Git |

Responsive Web Design

- Collaborated on developing webpages to showcase the evolution of UI/UX over decades using HTML, CSS, and JavaScript.
- Implemented responsive layouts and ensured cross-browser compatibility, focusing on usability and accessibility.
- Integrated dynamic interactivity with JavaScript, enhancing user engagement with intuitive navigation features.

2. StyleVista | |

HTML5 | Tailwind CSS | JavaScript | Git | CSS3 |

Responsive Web Design

- Created a responsive and visually appealing navbar and custom footer using HTML, CSS, and Tailwind CSS for cross-browser compatibility.
- Designed a seamless user experience for an online clothing store, with dynamic product displays and filtering options using JavaScript.
- Optimized the application for performance, ensuring fast loading times and smooth navigation for all devices.
